Structured Cabling Solution

Infinity IT Solution provides consultation, project management, installation and maintenance - the total solution for your structured network infrastructure. We have a team of highly qualified and dedicated Cat6 / Cat7 & FOC engineers who take pride in their work and complete installations with the minimum of disruption. We offer independent professional advice from beginning to end on relocating terminals, adding to or installing a new LAN, fiber optic cabling, and wireless solution. We provide quality IT infrastructure for new cabling solutions at affordable prices to small and medium Businesses.

Structured Cabling

We combine our passion for great design with our experience in joinery to produce Structured Cabling Solution

CCTV Surveillance System

Video integrates with IP and analog based systems to create complete , Interoperablity between video, security, lighting, energy management,and building automation for any facility.

Access Control

Access control solution provides control and alarm supervisory and management functions through a browser-based interface that allows authorized users (based on password and privilege level) to carry out system configuration and management functions.

Infinity IT Solution provides multi apartment door phone system is a security system, mainly used in the Multi apartments, Multi store buildings. Multi Apartment Video Intercom system is a tailor made and multi apartment's video intercom system fulfills the need of the customer requirements. Multi apartment's video

intercom system is a two-level restriction system which avoids the strange person entering into our campus. For the owner of the particular apartment he/she is provided with RF card or Finger print to get-in or get-out. Parking area is installed with CCTV camera where we can view using indoor monitor.

Nurse Call System

It is a communication and automation system enabling patients in the Hospital Patient Services to call nurses from patient rooms, patient toilets and baths and emergency observation rooms, conveying these calls to nurses through Overhead Warning Lights, Nurse Call Panels in the service desks and their pagers; and recording and reporting service performance by the smart cards used by the ward nurses.

Hotel Management

Infinity IT Solution specializes in hospitality solutions through HOSTECH - a business wing that solely manage the IT requirements of the hotel industry. With an in-depth understanding of the hospitality industry, HOSTECH offers a buffet of services through a comprehensive portfolio of technological solutions that help hotels manage their property, guests' services, reservations, memberships, communication network, provide personalized services, monitor staff productivity and thereby enhance productivity. A clear understanding of the different sections within a hotel helps HOSTECH in developing the right IT solutions, thereby enhancing efficiency and maximizing productivity.

HOSTECH has successfully implemented the solution in renowned hotel chains across the India.
